## AMENDMENTS TO THE DRAWINGS

A set of Formal Drawings is submitted with the new application identified above. The Formal Drawings include several corrections vis-a-vis the Figures submitted with the application as indicated below.

All the FIGS. have been corrected to provide the proper margins.

FIG. 12 has been corrected to properly represent the musical notes 1206. The notes were properly represented in the last line of the chart in 1206 of FIG. 12 but improperly depicted in musical notes below the chart.

FIG. 14 has been corrected to properly represent the musical notes 1404 for the same reasons as mentioned with respect to FIG. 12 above.

FIG. 22 has been corrected to avoid the duplication of the reference number 2200 in the figure. One of the elements originally labeled 2200 is now designated as element 2202 and is identified as such in the specification at p.58, line 28.

No new matter has been added as a result of these amendments.
